

DELTA INDUSTRIAL IMPROVES CONCRETE FINISHING QUALITY AND LEVELING EFFICIENCY WITH PURCHASE OF NEW **LASER SCREED**[®] MACHINE.

AUGUST, 2016:

As a leading industrial and commercial concrete contractor with a reputation for quality and innovation, Delta Industrial is pleased to announce the recent purchase of the Somero S-22E Laser Screed[®]. Delta Industrial chose this model due to its technologically advanced capabilities and its ability to enhance their concrete leveling solutions.

“With the new Laser Screed from Somero, we are able to provide our clients with a higher-end concrete finish and superior leveling capability, as well as control construction costs, which enables us to pass these savings efficiencies to our customers,” states Tom Lytle, Vice President of Delta Industrial. “This is the latest addition for Delta Industrial in providing turnkey solutions that raise the bar when it comes to meeting and exceeding machine foundations and press pit requirements.”

ABOUT DELTA INDUSTRIAL

Delta Industrial is a “Full Performance,” company with the ability to control every aspect of construction. Delta offers a variety of professional services that always have the customers’ best interests in mind. These services include machine & press foundations, steel slitting lines, general building maintenance & construction, concrete flatwork and steel design, fabrication & construction.

We are well versed in cutting edge construction techniques and are able to assist our clients from concept through design to finished product. We have worked with a wide and diverse base of companies throughout the country.
