Concrete Flatwork

DELTA INDUSTRIAL OVER 30 YEARS RETROSPECTIVE

Chesterfield Township, Michigan

January, 2024:

Delta Industrial is celebrating over 30 years of success. From press pits and machine foundation design and construction, to steel design and fabrication, concrete flatwork and complete contracting, Delta Industrial continues to be the standard for quality industrial work.

Founded in 1993 by Robert Grucz, Delta Industrial began operations in Harrison Township, Michigan with a small, but dedicated staff. The company continued to grow and finally settled into its current location in Chesterfield Township, Michigan in 1999.

A full TSS expansion came just two years later in 2001. And as their reputation for delivering quality steel construction and fabrication also grew, they established The Steel Shop in that same year as a separate entity to capitalize on that growing demand. By 2007, they'd extended their geographical reach to Trussville, Alabama. In 2010, that reach extended farther to Fort Thomas, Kentucky to give Delta Industrial a strong presence in the southern U.S.

Delta Industrial continues to provide complete industrial contracting services to a number of industries including automotive, stamping, aerospace, energy, medical and general construction. For more information, please contact their corporate office 589-598-1390 or visit them on the web at **www.deltaconcrete.com**.

About Delta Industrial:

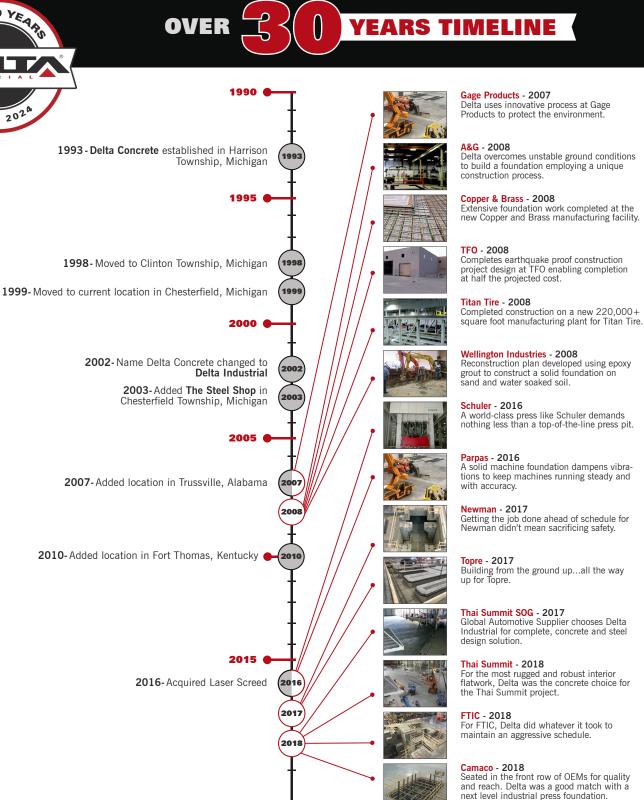

Delta Industrial is a "design-build" specialist, offering a variety of professional contracting services, including machine foundations, press pit foundations, slitting line foundations, general building maintenance & construction, concrete flatwork and steel fabrication & construction. With the diversity of construction knowledge that Delta brings to the job site, it quite simply GUARANTEES success in all facets of the project, regardless of the scope of work. From concept through design to finished product, Delta provides in-house services to accommodate all of your industrial contracting needs.
