Press Pits and Machine Foundations

Steel Design Fabrication and Construction

Concrete Flatwork

A Michigan Company Servicing The United States Since 1993

**SEATED IN THE FRONT ROW OF OEMS FOR QUALITY AND REACH. DELTA WAS A GOOD MATCH WITH A NEXT LEVEL INDUSTRIAL PRESS FOUNDATION.**

**Lorain, Ohio** - When Delta was awarded the contract for the installation of 1500T and 600T press foundations, bolster foundations, conveyor pits, looping pits, engineered load-rated floor plating, and approximately 9,000 SF of slab on grade, there was little time to spare as the presses were already onsite and ready to be installed. Delta's team immediately began installing the Delta-designed shoring system on both press foundations simultaneously. The onsite crew worked diligently on both foundations, seven days a week, until the job was complete. The project concluded with the placement of the slab on grade using Delta's Somero laser screed to ensure flatness and levelness of the floor.

**About Delta Industrial:**

Delta Industrial is a "design-build" specialist, offering a variety of professional contracting services, including machine foundations, press pit foundations, slitting line foundations, general building maintenance & construction, concrete flatwork and steel fabrication & construction. With the diversity of construction knowledge that Delta brings to the job site, it quite simply **GUARANTEES** success in all facets of the project, regardless of the scope of work. From concept through design to finished product, Delta provides in-house services to accommodate all of your industrial contracting needs.
