

Delta Industrial specializes in
**BUILDING FROM THE
GROUND UP...
ALL THE WAY UP**

April, 2018:

With a 30+ year reputation as a premier design-build specialists, Delta Industrial was selected as the original concrete contractor for Topre America Corporation's brand new facility in Springfield, OH. Phase I of the project included the building foundations, 75,000 square feet of slab on grade, loading docks and exterior paving. Then the real work began, as Phase II was started in November of 2017. For Topre's 75,000 square feet high bay stamping expansion Delta completed a diverse scope of work including a 3000-ton press foundation, 1000-ton press foundation, scrap conveyor tunnels, building foundations, slab on grade, spotting press foundation, CNC foundation, bolster rail foundations, utility trenches, and exterior paving. To combat the challenges of working outdoors in Ohio through the winter months, Delta supplied additional resources, materials, and equipment to keep construction running smoothly. When all was said and done, the projects were completed on time and Topre was equipped with foundations specifically tailored to accommodate their individual needs.

About Delta Industrial:

Delta Industrial is a "design-build" specialist, offering a variety of professional contracting services, including machine foundations, press pit foundations, slitting line foundations, general building maintenance & construction, concrete flatwork and steel fabrication & construction. With the diversity of construction knowledge that Delta brings to the job site, it quite simply GUARANTEES success in all facets of the project, regardless of the scope of work. From concept through design to finished product, Delta provides in-house services to accommodate all of your industrial contracting needs.
