

A Michigan Company Servicing The United States Since 1993

**DELTA INDUSTRIAL
STEERS PRESS PIT SOLUTION
INTO PLACE FOR ANOTHER
SUPPLIER OF THE LATEST
AUTOMOTIVE TECHNOLOGY.**

Blanchester, Ohio - Delta provided a turnkey foundation package consisting of design, demolition, earth shoring, concrete foundation, press sole plates, and load-rated steel floor plate. The final location of the press foundation presented some challenges, as Delta needed to uncap and demolish an existing pit wall that fell within the new footprint. Simultaneously, they had to excavate and shore other areas to ensure the work could be safely conducted. Additionally, since the location was adjacent to operational equipment, dust protection measures were installed to minimize disruption to plant operations. The crew efficiently used one of Delta's demo hammers to complete the demolition of the existing foundation, and they successfully finished the press foundation in under four weeks.

About Delta Industrial:

Delta Industrial is a “design-build” specialist, offering a variety of professional contracting services, including machine foundations, press pit foundations, slitting line foundations, general building maintenance & construction, concrete flatwork and steel fabrication & construction. With the diversity of construction knowledge that Delta brings to the job site, it quite simply **GUARANTEES** success in all facets of the project, regardless of the scope of work. From concept through design to finished product, Delta provides in-house services to accommodate all of your industrial contracting needs.
